**Access Instruction – NASC**

Access Credential – admin dashboard for NASC

- Go to www.ishirika.com

- Click on 'LOGIN'

- Next Window: COMPANY CODE (Code for NASC – 69290)

- Next window: User ID and Password (User ID 9732138126 / Password 12345678)

- The Admin dashboard will open as shown here

- Dashboard in multi-lingual (English / Hausa)... there is language option at top right corner

What admin can do in dashboard

o Add crop type / crop name / crop variety etc. depending on the business

o View data of all farmers registered
  (registration can be done by admin / self-registration by farmer in app / upload file if data is available in excel)

o Send message, advisory and alert to farmers
  (text / file attachment / video)

o Share Package of Practice of different crops to the farmers

o Answer the problem raised by the farmers

o Get a view of all seed products added by different seed companies

o View report and dashboard on various parameters of activities

o Use traceability to create better market access and market acceptance for consumers

Farmer data

o Photo (optional)
o Name
o Age
o Gender *(will be available shortly)*
o Phone Number (unique ID for famer)
o Location (by dropdown)
o Government ID (optional)
o Membership number (optional)
o Bank account details (optional)
o Plot Name
o Terrain type
o Soil Type
o Type of cultivation
o Plot Size
o Plot Geo-location (lat-long location)
o Crop Type
o Crop name
o Crop Variety
o Sowing time
o Tentative harvesting time
o Approx harvest quantity & frequency

(more than one plot can be added for one farmer, if he / she cultivates more than one type of crop)

(accurate lat-long is an important field, as that will allow us to access weather data of that location from our partners)

Access for app (farmer)

o   Open NASC app

o   Choose company * NASC'

o   Choose language (English / Hausa)

o   It will open Sign-in Screen

o   Phone No: 2222555555   Password: 12345678

o   Tap on 'Submit', it will open the dashboard like the one to the right

What a farmer can do

o   Self register *(by clicking on 'New user ? Sign here' option in the Sign-in screen)*

o   Do the following *(all buttons in dashboard)*
-   Search for Seed Information
-   Post problems
-   Log income and expense
-   Get weather advisory
-   Get information / bulletin / training content from NASC
-   Get recommended package of practices for various crops
(Other functionalities in menu panel, which will come on tapping the small icon to the right of ishirika logo)
